

# Great Jobs. Great Pay. Fast-track training. This is the Pipeline to a great start.

Want a great job without four years of college?  
Lucky you—You've got friends in all the right places.

Great local jobs are out there. Lots of them. In fact, local companies are planning to add over 1,000 highly-paid employees over the next five years. And most of the good jobs in the new economy DON'T require a four-year college degree—or four years of college debt. What they DO require is advanced training and specialized skills beyond your high-school degree. Maybe that's a certificate, or maybe a two-year program at a community college, or maybe employer-sponsored training.

**Pipeline** will help you find the right opportunity that puts you on the most direct line from school to a rewarding job with a bright future.

Fast Lane to Success

## How does it work?

The people who *provide* the jobs have partnered with the people who get you *ready* for the jobs and

with the people who want to help you get the jobs (that would be local industry + K-12 Schools + Linn-Benton Community College + the Albany Area Chamber of Commerce) to create **Pipeline**. This is a unique combination of programs, opportunities and people with one goal: put you on the fast lane to success. To put you on the path to a good job with a good future—without four years of college.

## You've got lots of smart, fast ways to get ahead.

From on-the-job training to specialized college courses, your fast lane to success can go in many directions. Visit [www.pipelinejobs.com](http://www.pipelinejobs.com) to find out more.

## Check out what's available right now.
